19 scholars to tackle important scholarly attention and reach existing courses. Each volume findings, and considers the long-

Communicating Science

New Agendas in Communication

Edited by LeeAnn Kahlor and Patricia A. Stout
Contents

List of Illustrations vii

Foreword: Building a Context for the Next Century of Science Communication Research ix
SHARON DUNWOODY

Preface xiii

Introduction 1

PART I
Merging Theory and Practice: Models and Frameworks 9

1. A Critical Appraisal of Models of Public Understanding of Science: Using Practice to Inform Theory 11
DOMINIQUE BROSSARD AND BRUCE V. LEWENSTEIN

2. Framing Science: A New Paradigm in Public Engagement 40
MATTHEW C. NISBET

3. Focusing on Fairness in Science and Risk Communication 68
JOHN C. BESLEY

4. Understanding Public Response to Technology Advocacy Campaigns: A Persuasion Knowledge Approach 88
JANAS SINCLAIR AND BARBARA MILLER

5. Using Temporally Oriented Social Science Models and Audience Segmentation to Influence Environmental Behaviors 109
BRET R. SHAW
PART II
Characterization and Meaning-Making

6. Competing Characters in Science-Based Controversy: A Framework for Analysis
   LISA KERÄNEN

7. Exemplary Objects: The Role of Materiality, Sociality, and Rhetoric in Articulating Science through Model Organisms
   JOHN LYNCH

8. Expanding Notions of Scientific Argument: A Case Study of the Use of Scientific Argument by American Indians
   DANIELLE ENDRES

9. Moral Development Framing in Environmental Justice News Coverage
   KRISTEN ALLEY SWAIN

PART III
The Future

10. An Interdisciplinary Approach to Science Communication Education: A Case Study
    AMY R. PEARCE, ALDEMARO ROMERO, AND JOHN B. ZIBLUK

environment: education as insufficient to change behavior 109; public participation in issues 203–4; social marketing, use in changing behavior 109–10; see also diffusion of innovations model; stages of change model
environmental justice movement: content analysis of news coverage of issues 222–6; defined 210; development of 210–11; future research 228–9; limitations of study 228; and news framing 211–14; news sourcing on environmental issues 214–15; pre-conventional rhetoric identified in research 226–8;
environmental justice movement - contd
prominent case 211; race and
perceptions of 213-14; research on
news coverage of issues 217, 218,
219-22, 220, 221; as a social
movement 213
“essential,” campaign 92
ethos 135-6, 137
*Ethos of Rhetoric, The* (Hyde) 136
evolution, framing used in conflicts over
49-55
*Expelled: No Intelligence Allowed*
54-5

Fabj, V. I. 198, 203
Fahar, B. 113

fairness: Cancer Cluster Project 76-7;
Citizen’s School project 78-9;
dimensions of 70; future research 79,
81-3; interpersonal 70, 72; as justice,
research on 74-6, 75; justice as,
social psychological research on
69-71; justice as, summary of
findings 80; measures of 81;
outcome 69-70; perceptions of local
scientists project 77-8; procedural
69-71; in research on citizen
engagement 71-2; and trust and
credibility 72-4
*Fairness and Competence in Citizen
Participation* (Renn, Webler &
Wiedemann) 71-2

familiarity with industry and trust and
accountability 103

Fineberg, Harvey 54

Fisher controversy: beleaguered
administrator *persona* 148-52;
competing assessments of Fisher 140;
origins of 139-40; *personae*,
emergence of during 138; *personae* as
focusing attention on Fisher 152-4;
*personae* as undercutting personal
*ethos* of Fisher 154-5; reluctant
apologist *persona* 144-8;
swashbuckling scientific
revolutionary persona 140-4;
vindication of Fisher 154
*Flock of Dodos* (Olson) 52

framing, news, and the environmental
justice movement 211-14
framing of science: benefits of 43; as
central to science journalism 61;
climate change 55-9; ethics of 61;
evolution 49-55; frame devices 45;
latent meanings of 45, 46; as neutral
organizing device 45; nuclear energy
46-7; as organizing and simplifying
issues 44; recurring, in policy debates
41; research on 43-4; *Science,
Evolution, and Creationism* booklet
40-1; scientist’s tool for
communicating truth 60-1; typology
of 46, 60

Frewer, L. J. 72, 73
Friedman, S. M. 188

“Friends of Coal (FOC)” campaign 92,
98, 101-2, 103
Friestad, M. 95, 96, 101
Fuller, S. 241
Futrell, R. 213

Gamson, William 44-5, 212
*Geneletter* 21-3

General Motors (GM), advertisement
for 88-9, 91, 105
*God Delusion, The* (Dawkins) 54
Goffman, Erving 43
Goodell, M. A. 176

“Good Ideas Are Growing” campaign
92, 100-1

Gore, Al 55, 58

Greenberg, M. 214
Greene, R. W. 163

Gross, A. 163

Habermas, J. 68
Haley, E. 99

Hartman, C. L. 99

Helmer, Bill 196, 198

hematopoietic stem cells (HSCs)
175-80

high-level nuclear waste: American
Indian challenge to Western science
194-7; American Indians use of
traditional Western scientific
arguments 198-202; in the US
192-3; Yucca Mountain repository
for 193-4

Hispanic radio shows 30-1

Human Genome Project (HGP):
analysis methods for case studies 19;
“A Question of Genes” documentary
27-9; conferences for minority
communities 23-7; funding for public
understanding of science projects 18;
*Geneletter* 21-3; radio shows in
Spanish 30-1; selection of project
  case studies 18-19; target audiences
  for outreach projects for 20
Hyde, Michael 136

indigenous and Western knowledge,
relationship between 204
individuals, theory of moral
development of 215-16
industry rhetoric: analysis of news
coverage of environmental justice
issues 222-6; future research 228-9;
limitations of study 228; moral
development of individuals, theory of
215-16; moral development of
organizations 216-17; pre-
conventional rhetoric identified in
research 226-8; research on coverage
of environmental justice issues 217,
218, 219-22, 220, 221
informational justice 70, 72
innovation see diffusion of innovations
model innovators 119-20
intelligent design (ID) 49-53, 62n6
interdisciplinary approach to education:
case studies 250; future for at
Arkansas State University 249; model
for at Arkansas State University 246,
247, 248-9; program at Arkansas
State University 241-6; review of
238-41
interdisciplinary research 2
interpersonal fairness 70, 72
interpersonal processes of
communication 35
