Singapore | Washington DC

Contents

List of figures	ix
Acknowledgements	xiii
1 Change riders	1
Beyond metaphor and the scientific snapshot	2
Processual research on change	3
Structure of the book	5
Conclusion	9
2 Dimensions of change	11
Perspectives on organizational change	11
The triggers to organizational change	15
The concept of organizational change	16
Why do people resist organizational change?	19
Flexibility: in search of new ways of organizing and working	21
Conclusion	24
3 A historical overview of theoretical perspectives and change frameworks	26
Change and the Industrial Revolution	26
Scientific management and change	28
The human dimension to change	29
The Organizational Development model of change	30
Change and socio-technical systems theory	32
A situational approach to change	34
Celebrity professors and consultants	35
A time to question simple change products and accounts	39
Making sense of change: a processual perspective	41
Framework for data analysis	45
Conclusion	50
4 Flexibility, workplace change and non-standard employment	51
Shifting employment strategies in the drive for profits and flexibility	52
Management of change and employee experience of work	55

Full-time employment and the push for flexibility: outsourcing and part-time work	58
The casualization of work, job insecurity and employee representation	62
Conclusion	67
5 New technology and power relations	69
Technology and change at work: an overview of conceptual debates	69
New technology at Dalebake Bakeries	72
Consumer demand and customer power: a changing market	73
The Mossdale facility: a factory after its time	76
The power of the retailing giants and the future of Mossdale	79
Conclusion	80
6 The experience of supervisors and older employees under conditions of change	83
The 'problem' of the supervisor and workplace change	83
The older supervisor and workplace change	85
Older employees and workplace change	90
Change initiatives and older employees: a question of hierarchy and position	93
Conclusion	95
7 Cellular manufacture and the politics of change	98
Cellular manufacture	98
Teamworking	99
Cellular work arrangements at Washdale Manufacturing	102
Sleepers wake: stamping down on the custom and practice of night shift operations	103
Management strategy and machine shop resistance to change	105
Conclusion	109
8 Globalization and strategic change	112
Globalization and organizational change	113
The company: F.H. Faulding & Co. Ltd	116
Human resource management and growth	118
Going global: beyond the local perspective	119
A global technology forum: the DBL acquisition	121
Strategic objectives: towards the seamless organization	123
Conclusion	125
9 Trade unions and a shifting industrial landscape	127
The changing industrial landscape and the decline in union membership	128
Gender, changing patterns of work and trade unions	132
Change and trade unions: the case of the Australian Services Union	134
Gender and trade unions: from male bastion to female friendly?	137
The politics of union organization: vested interest, gender and trade union democracy	140
Economic rationalism and the context of change	142

Trade unions, technology and the geographical dispersal of work	143
Conclusion	145
10 The quality management experience	148
Quality management: the new competitive advantage?	150
Complex outcomes: a processual analysis of case study data	153
Using case study data to identify practical guidelines for change	159
Conclusion	165
11 Living with change in the twenty-first century	167
Beyond the cookbook approach: the need for critical reflection	167
Elephant, flea, seal or gazelle? Change and the future of work	169
Practical lessons on change: beyond stories of success	173
Conclusion	177
Appendix: the TQM research programme and guide for interviewers	180
