

Lamb's

Questions and Answers on the Marine Diesel Engine

Eighth Edition

Stanley G Christensen

**B.Sc., C. Eng., F.I. Mar. E., Extra 1st Class Engineer,
M.O.T., Silver Medallist Institute of Marine Engineers and
William Nevins Prize Winner; Member, Society of Naval
Architects and Marine Engineers, USA**

Formerly Professor, Dept. of Engineering, US Merchant
Marine Academy, Kings Point, New York, USA

INDEX

- A-frames **160, 161, 164, 179, 183**
 - guides on **172, 179**
- Acceleration **2**
 - of a piston **436, 439, 440**
- Acidity, test for
 - in lubricating oil **48**
- Addendum of gear tooth **309, 312**
- Adhesives **146**
- Adiabatic compression **422**
 - process **13**
- Aft peak floors **351**
- After-burning **79**
 - effects of **79, 210**
- Air** admission point **19**
- Air** charge ratio **23**
- Air** compressors **421**
 - attention required **429**
 - bearings **429**
 - clearance volume **429**
 - cooling **428**
 - discharge temperature **429**
 - effect of sluggish and restricted air inlet valves **423, 424, 425**
 - intercoolers **421, 422**
 - lubrication **426, 427**
 - oil free type **428**
 - rating **423**
 - suction and delivery valves **425**
- Air coolers, drains **123**
 - effect of fouling **123**
- scavenge and charge air **121**
- Air cycle, theoretical **15**
- Air filters, turbo blower **120**
 - cleaning **120**
 - materials **120**
- Air in **cooling** water **173**
 - ingress **411**
 - inlet valves **206**
 - locking** in cooling system **398**
 - locking** in steam system **400**
 - pipes, **tank** **512**
 - starting system **283**
 - starting valves **206, 283, 284**
 - surge **126**
 - turbulence **72, 94**
- Alarm, thrust bearing **412**
- Alignment, effect on, from trim **378**
 - from vessel grounding **386**
- Alignment of **gearing** **324**
 - of **shafting** **371, 377**
 - optical methods **383**
 - taut wire methods **372**
- Alloys **136, 139, 141**
- Alternating stresses **6**
- Alternator drive **305**
- Alternators, rotational **speeds** **435, 457**
- Alumina** (aluminium oxide catalyst) **39**
- Aluminium oxide (ceramic) **144**
- Analogue **500**
- Annealing **138**
- Annealing, of castings and forgings **218**
 - of copper joint rings **206**
- Anodes,
 - damage caused by **407**
 - effectiveness of **407**
 - location of **356**

- Anodic materials 406
- Antinode** 466,468
- Apparent slip, propeller 349
- Articulated connecting rods 271
- Atomization 72, 76, 83
 - of fuel 31
- Atoms and molecules 1
- Austenitic** steels 139
- Automatic valve, starting air 283, 287, 2%
- Auxiliary engine flywheels 437
- Avogadro's law 16
- Axial vibration 468

- Babbitt metal 141
- Balance, turbo-blower rotor 456
 - weights 441
- Balancer, secondary inertia force 443
 - primary forces 441
 - moments 447,451
 - secondary forces 443,445
 - moments 447,451
- Barred** speed range 461,462
 - spare propeller 463
 - tachometer **marking** 462
- Bearing alloys 141
 - bolts 261,263, 265
 - clearance measurements 272
 - liners or shims 264
 - oil grooves 258
 - oil seals in turbo-blowers 122
 - shims or liners 264
 - support 383,384
- Bearings, air compressor 429
 - bottom end 260
 - examination of 260
 - crosshead** 273,274,276,277
 - dismantling 260
 - intermediate shaft 350
 - main 258
 - precision or thin wall 141
 - reduction gearing **315**
 - wear** down 322
 - thin wall or precision 141
 - thrust 352, 353, 354,412
- Bedplate,
 - medium speed engine 161
 - opposed-piston engine 449
 - strength members 157, **158**, 161
 - transverse members 158
- Bedplates 158
- Bending moments on bearing bolts 264
 - on cylinder liners 187
- Bernoulli's** law 413
- Bessemer** steel 137
- Bevel gears 299,300
- Big-end** bearings 260
- Bilge injection valve 509
- Binding wire, turbine blade 118
- Blade vibration 118
- Blending fuels 67
- Blocking devices, reversing gear 291
- Blowers, scavenge 107
- Boiler feed system 400
- Boundary lubrication 33
- Bourdon** tube, pressure gauges 491, **492**
- Brakes, pneumatic 304,305
- Braking gear, shafting 291
- Brazing **145**
- Breakdown, turbo-blower 132
- Bridge gauge 322,358
 - errors 359
- Bridged bearings 259,365
- Brinell** hardness number 152
- Bubble impingement 356, 407
- Bulk modulus 5, 193, 194
- Bursting cartridges **207**, 516
 - discs **207**, 516
- Bypass valves 413

- Cam adjustment, fuel 89
- Cams 33,266,268
 - fitting of, on camshaft 268
- Camshaft bearings 269
 - drive 266
 - chains 267
 - reversible engines 288,289
 - torque 266
- Carbon, effect** of, on steel 137
- Carbon residue 47
- Carbon trumpets 83
 - petal formation 83
- Carburizing 138
- Carnot** cycle 14
- Cast iron **136**, 140, 142
 - for cylinder liners 142
 - piston rings 140
- Catalytic **cracking** fines 40
 - effect of 102
- Catenary 374
- Cathode ray oscilloscope 503
- Cathodic metals 406
- Cavitation 356, 401
- Centrifugal force 3
 - clarifiers 57, 58, 61, 64, 65

- governors 471 through 481
- pumps 408
- purifiers 57, 58, 59, 61, 62, 144
- separators, *See* purifiers
- Centrifugal force 3
- Ceramics 144
- Characteristic **curves**, engine 91
 - pumps 409
- Charpy** impact testing machine 151
- Chocks 164, 166, 169, 170, 171
 - elastic 170, 171
 - fitting of 167
 - plastic 169
 - slack, correction for 165, 169
- Chromium plated crosshead pins 279
 - cylinder liners 201
 - piston ring grooves 232
- Chromium plated, piston rings 240
- Cleaning of air coolers 123, 124
- Cleaning of heat exchangers 124, 402
 - turbo-blower **blading** 125
- Clearance volume 23
- Clearances, measurement of 272
 - bearings 273
 - cams and rollers 268
 - crosshead guides 181
 - gear teeth 323
 - opposed piston side rod bearings 473
 - piston 227, 228
 - piston rings 234, 237
 - thrust bearings 354, 356
 - on sides of bottom end **bearings** 388
 - side of crankwebs 388
- Clock gauge, checking of 360
 - use of 367
- Closed loop control 497
- Cloud point 42
- Clutches 300, 301
 - friction 300
 - pneumatic 304, 305
 - rate of air pressure rise 305
- Coalescers** 55
- Cocktail shaker cooling 230
- Columns, *see* A-frames
- Combustion chambers 31
 - after burning 79
 - of fuel 78
- Compensation rings 431
- Compressed air,
 - working pressure, systems 420
 - reservoirs 430, 432
 - compensation rings 431
 - mountings on 432
 - sizes of 432
- Compression pressure 487, 489
 - ratio 23, 24
- Compressive stress 5
- Compressors 421
- Computers, use of 501
- Condensate returns 507, 508
- Conduction, thermal 12
- Connecting rod failure 270
- Connecting** rods 270, 271
 - articulated** 271
 - fork and blade 271
- Constant pressure process 13
 - turbo-charging** 114, 127,
- Constant volume process 13
- Constrained elastic systems 452, 454
- Contra-flow heat exchangers 397
- Control of cooling water temperature 495, 499
 - engine speed 471
 - closed loop 497
 - open loop 497
- Controllable pitch propellers 344, 345, 346, 347
- Controllable pitch propellers, attention required 348
 - blade seals 347, 348
- Controllable pitch propellers, examination in dry dock 348
 - servo motor oil 347
- Convection thermal 12
- Coolers, air, oil in 122
 - cleaning 124
- Cooling cylinder heads 30
 - liners 30
 - service** pumps 408
 - systems 392
 - temperature control 495, 499
 - water contamination 197
- Copper sealing rings 33, 194, 206
 - annealing of 33, 206
- Corrosion in heat exchangers 405
- Couple 3
- Coupling bolts 332, 333
 - fitting of 332
 - hydraulically loaded 333
 - tapered 332
- Coupling face flange angles 384
 - types of 301, 333
- Couplings, flange 331, 333
 - muff 333

- primary and secondary elements in 301
- Crankcase explosions 51.3
mist detectors 515
relief valves 514, 515
safety devices 514, 515
- Crankshaft alignment 358
deflections 361, 383
dowel pins 252
examination of 258
failure 261, 262, 263
fatigue resistance 262
fully built 245
fillet rolling 262
grain flow in 247, 248
journal wear 338, 339
manufacture 245
oil holes in 257
reference marks 253
sag line 371
semi built 245, 452
shrink fits 247, 251
shrink fit slip 253
solid forged 246, 248
stresses 250, 255
stresses in 255
web proportions 251
- Crankshaft welded construction 249
- Crankweb** deflections 361, 362, 367
measurements 367
- Creep in steel 152
testing 152
- Crevice corrosion 406
- Critical speed 461
- Cross scavenging, improvements 110
- Crosshead and trunk piston engines, comparison of 22
- Crosshead bearings 273, 274, 276, 277
failure 274
examination 277
- Crosshead guide **cooling** 172
guides 179
lubrication 181
pin surface **finish** 273
- Crude oil, types of 38
- Cutting out cylinder 71
- Cyaniding** 189
- Cycle, dual or mixed 15
four stroke 19
two stroke 19
- Cyclic stress 6
in crankshafts 255
- Cycloid 308, 309, 310
- Cylinder alignment 216, 386
cover, loads on 35
cutting out 71
jackets 185
liners 185
bending moments in 187
change of wear rate 201
chromium plated 240
circumferential alignment 216
copper sealing rings 194, 206
fastening of 189
forces acting on 186
hoop stresses in 186
hydraulic test on 216
limiting diameter of 188, 190
maximum wear of ,202
recondition of 201
scuffing in 234, 242
temperature on gas side of 187, 190
wear of 198, 199
wear ridges in 234
- Cylinder lubrication 172, 416, 511
timed 417
- Cylinder oil quills 174, 195
alignment of 216
leaking 197
- Damage to gear teeth 325, 329
- Damped vibrations 453
- Damping 453
- Dark smoke, causes of 81
- Data loggers 501
- Dedendum**, tooth 309, 312
- Deflection gauge, *see* dial micrometer
- Deflection, of crank webs 361, 362, 367
effect of bearing wear on 364
gauge position 362, 363
of diesel generator crankshafts 369
running gear weight 361
- Detuners 463, 465, 466
spring loaded 464
- Dew point of exhaust gases 48
- Dial Micrometer gauges, checking of 360
uses of 367
- Diaphragm oil seal 172
- Diesel oil 37
- Differential pressure gauges 493
uses of 494
- Diffuser 115
- Digital 500
- Discharge piping from fuel injection pumps 74

- Dissociation 12
 Double bottom drain tanks 410
 Dowel pins 252
 Drain tanks 410
 Drains on air coolers 123
 Dual cycle 15
 Ductility 151
 Duplex filters 67
 Dye penetrant testing 154, 265, 329
 Dynamic balance 450
- Effect of after burning 79
 heat on matter 11
 Efficiency of clutches, couplings 315, 316
 gearing 315, 317
 scavenge 23
 Efficiency volumetric 23
 Elastic chocks 170, 171
 limit 5
 curve line 461, 467
 Elastomers 144
 Electric welding, *see* welding
 Electro-magnetic couplings 302
 Electromotive series 406
 Electron microscope 10
 Electrons 1
 Elongation percentage 150
 Emergency bilge suction 509
 Emulsions 68
 End relief, screw shaft liners 340
Endothermic action 12
 Energy 2
 kinetic 2
 potential 2
 Engine balance 440
 maintenance 34
 speed control 471
 starting gear 281
 type classification 34
 Epicyclic gearing 315
 Epicycloid 308, 309
 Examination, **bottom-end** bearings 260
 Examination, crosshead bearings 273, 264, 277
 Exhaust gas **blowdown** 110
 discoloration 81
 flow through ports 110
 release 110
 silencers 134
 temperature, distant readings 492
 turbo blowers 114, 121, 122
 Exhaust pipe arrangement 112, 519
 Exhaust port bars 242
 Exhaust valve, air piston closing 211, 212, 213
 burned seats 139, 209, 210
 cooling spaces 207, 208
 hydraulic operated 211, 212, 213
 leakage 209, 210
 springs 469
 Exhaust valves 206, 208 through 215
 Exhaust, loop and cross-scavenge engines 110
 Expanding tubes 38
 Expansion gases 13
 heat exchangers 395, 397
 Explosion in **crankcase** 513
Exothermic action 12
- Failure, definition of 8
 corrections of 8
 Failure of automatic valve 287
 components 8
 crankshaft 261, 262
 crosshead bearings 274, 276
 piston rings 241
 screwshaft 335
 welded joints 147, 148
 Fatigue cracks 9, 253, 270
 failure 9
 welded joints 147, 148
 resistance 132, 135
 Feedback 476
Ferrographic analysis 50
 Ferrous materials 136
 Finite element analysis 10
 Filters, duplex 66, 67
 exhaust turbo blower 119, 120
 magnetic 329, 330
 simplex 66, 67
 Fir-tree root, turbine blading 119
 Fire ring 190
 Firing pressure, effect of, crosshead bearings 273
 Fitting piston rings 234
 Flaking, gear teeth 325, 326
 Flame hardening 139
 ring 190
 Flash point 41
 Flexible chocks 170, 171
 Flow, air through scavenge ports 110
 coolant, through pistons 230
 meters 490
 paths in heat exchangers 394, 395
 rate 49

- Flow switch 499
Fluctuating stress 6
Fluctuation in energy 347
 speed 347
Fluid **film** lubrication 32
Fluorescent materials 404
Flushing fluids 416
Flywheel 436
Force 2
 centrifugal 3
 centripetal 3
 moment of 3
Forced vibration 453
Forces and moments from thermal expansion 397
Forces in **hydraulic** couplings 317
Forces, primary and secondary 441, 442, 443, 444
Fossil fuels 37
Fouled scavenge ports 109
Fouling factor heat exchangers 401, 402
 sea water strainers 413, 415
Fretting, bearing pockets 258
 chocks 165, 168, 169
 foundation plate 165, 169
 tie bolt landings 164
Friction, gear tooth 314
Fuel atomization 31, 72, 76, 83
 cam adjustment 89
 degradation (microbial, growth) 51
 injection period 31
 oil standards 69
 penetration 72, 83
 piping high pressure 74, 89
 priming pump 85
 purification 55, 59, 61, 62, 63
 spray direction 84
 surcharge pump 85
 system 392, 393
 tank safety devices 512
 viscosity control 490, 494
 injection pump 70
 pump damage 71
 pump suction valves 71
 injection valve 72
 pintle type 74
 carbon build up 82
 nozzles 73, 84
 seat angles 83
 spray pattern 74
 testing 74
 testing **services** 69, 103
 timing 89
Fuels, blended 47, 67
Full penetration welding 147

Gamma rays 153
Gas constants 13
Gas oil 37, 38
Gaseous fuels 37
Gear boxes 313, 328
Gear hobbing machines 318
Gear tooth, backlash 309
 clearance 309
 contact 324
 damage 325, 329
 end relief 323
 friction 314
 grinding 318
 hobs 318
 lacquer 324
 lapping 319
 shaving 319
 trip relief 323
 wear 323
Gear wheels, camshaft drive 269
Geared propulsion drives 298
Gears, types of 299, 323
Generators, rotational speeds 435, 457
Governor, compensation 477
 control valve 475
 speed droop 473
 effort 473
 hunting 473
 hydraulic accumulators 475
 malfunction 474, 473
 sensitivity 473
 stability 473
Governors 471
 electronic 483, 484
 inertia 471, 472
 mechanical/hydraulic 475
Grease 68
Grounding of ship, effect on shaft alignment 386
Gudgeon pin 21, 227, 139
Guide, crosshead alignment 386
 clearance 181
 cooling 172
Guides, crosshead 179
Gyration, radius of 4

Hammered piston rings 231
Hardening steel 138
