International Safety Guide for Oil Tankers and Terminals

Fifth Edition

INTERNATIONAL CHAMBER OF SHIPPING
OIL COMPANIES INTERNATIONAL MARINE FORUM
INTERNATIONAL ASSOCIATION OF PORTS AND HARBORS
CONTENTS

FOREWORD iii

INTRODUCTION TO THE FIFTH EDITION v

PURPOSE AND SCOPE xxix

BIBLIOGRAPHY xxiii

DEFINITIONS xxxv

PART 1: GENERAL INFORMATION 1

CHAPTER 1 BASIC PROPERTIES OF PETROLEUM 3

1.1 Vapour Pressure 3
1.1.1 True Vapour Pressure 3
1.1.2 Reid Vapour Pressure 4

1.2 Flammability 4
1.2.1 General 4
1.2.2 Flammable Limits 4
1.2.3 Effect of Inert Gas on Flammability 5
1.2.4 Tests for Flammability 6
1.2.5 Flashpoint 6
1.2.6 Flammability Classification of Petroleum 6

1.3 Density of Hydrocarbon Gases 8

CHAPTER 2 HAZARDS OF PETROLEUM 9

2.1 Flammability 9

2.2 Density 9

2.3 Toxicity 9
2.3.1 Introduction 9
2.3.2 Liquid Petroleum 10
2.3.3 Petroleum Gases 10
2.3.4 Material Safety Data Sheets (MSDS) 11
2.3.5 Benzene and Other Aromatic Hydrocarbons 12
2.3.6 Hydrogen Sulphide (H₂S) 13
2.3.7 Mercaptans 18
2.3.8 Gasolines Containing Tetraethyl Lead (TEL) or Tetramethyl Lead (TML) 18
2.3.9 Inert Gas 18
2.3.10 Oxygen Deficiency 19

2.4 Gas Measurement 20
2.4.1 Introduction 20
2.4.2 Measurement of Hydrocarbon Concentration 20
2.4.3 Flammable Gas Monitors (Explosimeters) 21
2.4.4 Non-Catalytic Heated Filament Gas Indicators (Tankscopes) 24
CHAPTER 3  STATIC ELECTRICITY

3.1  Principles of Electrostatics
  3.1.1  Summary
  3.1.2  Charge Separation
  3.1.3  Charge Accumulation
  3.1.4  Electrostatic Discharge
  3.1.5  Electrostatic Properties of Gases and Mists

3.2  General Precautions Against Electrostatic Hazards
  3.2.1  Overview
  3.2.2  Bonding
  3.2.3  Avoiding Loose Conductive Objects

3.3  Other Sources of Electrostatic Hazards
  3.3.1  Filters
  3.3.2  Fixed Equipment in Cargo Tanks
  3.3.3  Free Fall in Tanks
  3.3.4  Water Mists
  3.3.5  Inert Gas
  3.3.6  Discharge of Carbon Dioxide
  3.3.7  Clothing and Footwear
  3.3.8  Synthetic Materials

CHAPTER 4  GENERAL HAZARDS FOR SHIP AND TERMINAL

4.1  General Principles

4.2  Control of Potential Ignition Sources
  4.2.1  Naked Lights
  4.2.2  Smoking
  4.2.3  Galley Stoves and Cooking Appliances
  4.2.4  Engine and Boiler Rooms

10.8 Respiratory Protective Equipment
10.8.1 Self-Contained Breathing Apparatus (SCBA)
10.8.2 Air Line Breathing Apparatus
10.8.3 Emergency Escape Breathing Device (EEBD)
10.8.4 Cartridge or Canister Face Masks
10.8.5 Hose Mask (Fresh Air Breathing Apparatus)
10.8.6 Equipment Maintenance
10.8.7 Stowage
10.8.8 Training

10.9 Work in Enclosed Spaces
10.9.1 General Requirements
10.9.2 Opening Equipment and Fittings
10.9.3 Use of Tools
10.9.4 Use of Electric Lights and Electrical Equipment
10.9.5 Removal of Sludge, Scale and Sediment
10.9.6 Work Boats

10.10 Pumproom Entry Precautions
10.10.1 Ventilation
10.10.2 Pumproom Entry Procedures

10.11 Pumproom Operational Precautions
10.11.1 General Precautions
10.11.2 Cargo and Ballast Line Draining Procedures
10.11.3 Routine Maintenance and Housekeeping Issues
10.11.4 Maintenance of Electrical Equipment in the Pumproom
10.11.5 Inspection and Maintenance of Pumproom Ventilation Fans
10.11.6 Testing of Alarms and Trips
10.11.7 Miscellaneous

CHAPTER 11 SHIPBOARD OPERATIONS

11.1 Cargo Operations
11.1.1 General
11.1.2 Setting of Lines and Valves
11.1.3 Valve Operation
11.1.4 Pressure Surges
11.1.5 Butterfly and Non-Return (Check) Valves
11.1.6 Loading Procedures
11.1.7 Loading Static Accumulator Oils
11.1.8 Loading Very High Vapour Pressure Cargoes
11.1.9 Loading Cargoes Containing Hydrogen Sulphide (H₂S)
11.1.10 Loading Cargoes Containing Benzene
11.1.11 Loading Heated Products
11.1.12 Loading Over the Top (sometimes known as ‘Loading Overall’)
11.1.13 Loading at Terminals Having Vapour Emission Control (VEC) Systems
11.1.14 Discharging Procedures
11.1.15 Pipeline and Hose Clearing Following Cargo Operations

11.2 Stability, Stress, Trim and Sloshing Considerations
11.2.1 General
11.2.2 Free Surface Effects
11.2.3 Heavy Weather Ballast
11.2.4 Loading and Discharge Planning

11.3 Tank Cleaning
11.3.1 General
11.3.2 Tank Washing Risk Management
11.3.3 Supervision and Preparation
11.3.4 Tank Atmospheres
11.3.5 Tank Washing
11.3.6 Precautions for Tank Washing
11.4 Gas Freeing
   11.4.1 General
   11.4.2 Gas Free for Entry Without Breathing Apparatus
   11.4.3 Procedures and Precautions
   11.4.4 Gas Testing and Measurement
   11.4.5 Fixed Gas Freeing Equipment
   11.4.6 Portable Fans
   11.4.7 Ventilating Double Hull Ballast Tanks
   11.4.8 Gas Freeing in Preparation for Hot Work

11.5 Crude Oil Washing
   11.5.1 General
   11.5.2 Advance Notice
   11.5.3 Tank Washing Machines
   11.5.4 Control of Tank Atmosphere
   11.5.5 Precautions Against Leakage from the Washing System
   11.5.6 Avoidance of Oil and Water Mixtures
   11.5.7 Isolation of the Tank Cleaning Heater
   11.5.8 Control of Vapour Emissions
   11.5.9 Supervision
   11.5.10 Cautionary Notice

11.6 Ballast Operations
   11.6.1 Introduction
   11.6.2 General
   11.6.3 Loading Cargo Tank Ballast
   11.6.4 Loading Segregated Ballast
   11.6.5 Deballasting in Port
   11.6.6 Discharging Segregated Ballast
   11.6.7 Ballast Water Exchange at Sea
   11.6.8 Discharging Cargo Tank Ballast at Sea

11.7 Cargo Leakage into Double Hull Tanks
   11.7.1 Action to be Taken
   11.7.2 Inerting Double Hull Tanks

11.8 Cargo Measurement, Ullaging, Dipping and Sampling
   11.8.1 General
   11.8.2 Measuring and Sampling Non-Inerted Tanks
   11.8.3 Measuring and Sampling Inerted Tanks
   11.8.4 Measuring and Sampling Cargoes Containing Toxic Substances
   11.8.5 Closed Gauging for Custody Transfer

11.9 Transfers Between Vessels
   11.9.1 Ship-to-Ship Transfers
   11.9.2 Ship-to-Barge and Barge-to-Ship Transfers
   11.9.3 Ship-to-Ship Transfers Using Vapour Balancing
   11.9.4 Ship-to-Ship Transfers Using Terminal Facilities
   11.9.5 Ship-to-Ship Electric Currents

CHAPTER 12 CARRIAGE AND STORAGE OF HAZARDOUS MATERIALS

12.1 Liquefied Gases

12.2 Ship's Stores
   12.2.1 General
   12.2.2 Paint
   12.2.3 Chemicals
   12.2.4 Cleaning Liquids
   12.2.5 Spare Gear Storage
12.3 Cargo and Bunker Samples
12.4 Other Materials
   12.4.1 Sawdust, Oil Absorbent Granules and Pads
   12.4.2 Garbage
12.5 Packaged Cargoes
   12.5.1 Petroleum and Other Flammable Liquids
   12.5.2 Dangerous Goods
   12.5.3 Entry into Holds
   12.5.4 Portable Electrical Equipment
   12.5.5 Smothering Type Fire Extinguishing Systems
   12.5.6 Fire-Fighting Precautions
   12.5.7 Forecastle Spaces and Midship Stores
   12.5.8 Deck Cargo
   12.5.9 Barges

CHAPTER 13 HUMAN ELEMENT CONSIDERATIONS
13.1 Manning Levels
13.2 Training and Experience
13.3 Hours of Rest
   13.3.1 Statutory Requirements
   13.3.2 Fatigue
13.4 Drug and Alcohol Policy
   13.4.1 Industry Guidelines
   13.4.2 Control of Alcohol
   13.4.3 Drug and Alcohol Testing Programmes
13.5 Drug Trafficking
13.6 Employment Practices

CHAPTER 14 SPECIAL SHIP TYPES
14.1 Combination Carriers
   14.1.1 General Guidance
   14.1.2 Types of Combination Carriers
   14.1.3 Slack Holds in Combination Carriers
   14.1.4 Sloshing
   14.1.5 Longitudinal Stress
   14.1.6 Venting of Cargo Holds
   14.1.7 Inert Gas
   14.1.8 Hatch Covers
   14.1.9 Tank Washing
   14.1.10 Carriage of Slops when Trading as a Dry Bulk Carrier
   14.1.11 Leakage into Ballast Tanks on Combination Carriers
   14.1.12 Testing of Cargo Tanks and Enclosed Spaces on Dry Bulk Voyages
   14.1.13 Cargo Changeover Check-Lists
14.2 LPG Carriers Carrying Petroleum Products
   14.2.1 General
   14.2.2 Product Limitations
   14.2.3 Pre-Loading Preparations
   14.2.4 Loading of Pentane Plus or Naphtha
   14.2.5 Cargo Sampling
   14.2.6 Loading, Carriage and Discharge Procedures
   14.2.7 Tank Cleaning and Changeover Procedures
### PART 3: TERMINAL INFORMATION

#### CHAPTER 15 TERMINAL MANAGEMENT AND ORGANISATION

15.1 Compliance  
15.2 Hazard Identification and Risk Management  
15.3 Operating Manual  
15.4 Terminal Information and Port Regulations  
15.5 Supervision and Control  
15.5.1 Manning Levels  
15.5.2 De-Manning of Berths During Cargo Handling  
15.5.3 Checks on Quantity During Cargo Handling  
15.5.4 Training  
15.6 Ship and Berth Compatibility  
15.6.1 Maximum Draught  
15.6.2 Maximum Displacement  
15.6.3 Length Overall (LOA)  
15.6.4 Other Criteria  
15.7 Documentation

#### CHAPTER 16 TERMINAL OPERATIONS

16.1 Pre-Arrival Communications  
16.2 Mooring  
16.2.1 Mooring Equipment  
16.3 Limiting Conditions for Operations  
16.4 Ship/Shore Access  
16.4.1 General  
16.4.2 Provision of Ship/Shore Access  
16.4.3 Access Equipment  
16.4.4 Siting of Gangways  
16.4.5 Safety Nets  
16.4.6 Routine Maintenance  
16.4.7 Unauthorised Persons  
16.4.8 Persons Smoking or Intoxicated  
16.5 Double Banking  
16.6 Over the Tide Cargo Operations  
16.6.1 Discharging Over the Tide  
16.6.2 Loading Over the Tide  
16.7 Operations Where the Ship is not Always Afloat  
16.8 Generation of Pressure Surges in Pipelines  
16.8.1 Introduction  
16.8.2 Generation of a Pressure Surge  
16.9 Assessment of Pressure Surges  
16.9.1 Effective Valve Closure Time  
16.9.2 Derivation of Total Pressure in the System  
16.9.3 Overall System Design  
16.10 Reduction of Pressure Surge Hazard  
16.10.1 General Precautions  
16.10.2 Limitation of Flow Rate to Avoid the Risk of a Damaging Pressure Surge  
16.11 Pipeline Flow Control as a Static Precaution  
16.11.1 General
CHAPTER 26  SAFETY MANAGEMENT

26.1  Climatic Conditions
  26.1.1  Terminal Advice of Adverse Weather Conditions
  26.1.2  Wind Conditions
  26.1.3  Electrical Storms (Lightning)

26.2  Personnel Safety
  26.2.1  Personal Protective Equipment (PPE)
  26.2.2  Slip and Fall Hazards
  26.2.3  Personal Hygiene
  26.2.4  Clothing Made of Synthetic Materials

26.3  The Ship/Shore Safety Check-List
  26.3.1  General
  26.3.2  Guidelines for Use
  26.3.3  The Ship/Shore Safety Check-List
  26.3.4  Example Safety Letter

26.4  Guidelines for Completing the Ship/Shore Safety Check-List

26.5  Emergency Actions
  26.5.1  Fire or Explosion on a Berth
  26.5.2  Fire on a Tanker at a Terminal
  26.5.3  International Shore Fire Connection
  26.5.4  Emergency Release Procedures
  26.5.5  Emergency Towing-Off Pennants

INDEX
INDEX

A

Access
equipment 16.4.3
responsibility to provide 16.4.2
ship/shore 16.4; 26.4(1)
unauthorised persons 16.4.7

Accommodation
air conditioning and ventilation systems
  24.2; 26.4(45)
oppenings in 24.1; 26.4(17)
- see also Superstructure

Additives
Anti-static 11.1.7.9
general precautions 12.5.2.2

Adjacent berths
general cargo ships at 24.9.2
tankers at 24.9.1

Administration
- definitions

Aerials
- see Antennae, transmitting

Air conditioning
central 4.1; 11.4.3; 24.2; 26.4(45)
window type units 11.4.3; 24.2; 26.4(44)

Air draught
restrictions on 15.6.4
retention of ballast to reduce 11.6.6.1

Air driven lamps
precautions for use 4.3.3; 12.5.4

Air flow
over accommodation block Figure 2.4

AIS
status during cargo operations 4.8.4

Alarms
cargo tank overfill 11.1.6.6; 11.1.13.4;
  26.4(33)
emergency 20.2.3.1
fire 19.3; 19.4

gas measurement instruments 2.3.6.4;
  8.2.3; 8.2.4; 19.2.9
pumproom 10.11.6; 10.11.7
vapour balancing during ship-to-ship
  transfers 7.1.6.4

Alongside
barges 11.9.2; 12.5.9
tugs 23.3.2
tugs and other craft 24.9.4
- see also Boats alongside; Tugs

Aluminium
anodes 4.7
equipment 4.6
fire protective clothing 19.7
portable pumps 14.2.3

Anchors
readiness 23.3.1
securing 23.4.2.5; 26.4(2)

Anodes
- see Aluminium; Cathodic protection;
  Magnesium

Antennae, transmitting
earthing during bunkering 25.4.3(17)
earthing during cargo 26.4(42)
precautions for use 4.8.2.1
satellite equipment 4.8.2.3

Anti-knock compounds
handling of 12.5.2.1
- see also Tetraethyl lead; Tetramethyl
  lead

Antistatic additive
- definitions
use of 11.1.7.9; 12.5.2.2

Approved equipment
- definitions
alterations to 4.4.4.5
communications 4.8.1; 26.4(38)
fixed electrical 4.4.3
gas measurement 2.4
portable electrical 4.3; 12.5.4;
  26.4(39),(41)

Aqueous film forming foam (AFFF)
use of 5.3.2.1
Area classification
  electrical equipment/installations 4.4
  – see also Dangerous area; Hazardous area

Arms
  – see Metal cargo arms

Aromatic hydrocarbons
  benzene and others 2.3.5
  – see also Benzene

Asbestos
  removal of lagging 4.11
  respiratory hazards 10.2.2

Atmosphere
  cargo tank control 7.1.5
  cargo tank washing and cleaning 11.3.4
  inert 7.1.6; 11.3.4.1
  non-inert 11.3.4.2
  – see also Measuring and sampling; Sampling

Auto-ignition
  – definitions
  of petroleum liquids 4.10

Automatic Identification System
  – see AIS

Battery equipment
  portable 4.3.4; 4.3.5; 4.3.6

Bearings
  cargo pump, inspection of 10.11.1;
  10.11.7

Benzene
  and other aromatic hydrocarbons 2.3.5
  cargo information 2.3.4; 22.4.1.2; 22.4.2.1;
  26.4(27)
  in enclosed spaces 7.1.6.12; 10.2.4.1;
  11.4.2
  loading cargoes containing 11.1.10
  respiratory hazards 10.2.2
  toxicity 2.3.5.2

Berthing
  at buoy moorings 23.5
  exchange of information 22.3
  fender operating limits for 17.2

Berths
  general cargo, operations at 24.9.3
  mooring at 9.8.5; 16.2; 23.4
  vehicle access to 24.13
  – see also Adjacent berths; Jetty

Bilges
  pumproom, alarm 10.11.7
  pumproom, cleanliness of 10.11.3

Bilge water
  – see Adjacent berths; Jetty

Boats alongside
  barges 11.9.2; 12.5.9
  during an emergency 9.9.3.1
  during cargo operations 24.9.4
  during tank cleaning 11.3.3.2
  – see also Tugs

Boiler tubes
  soot blowing 4.2.4.2

Bonding
  – definitions
  in terminal 17.6
  ship/shore cable/wire 17.5.2; 17.5.4
  static electricity Chapter 3
  tank cleaning hoses 11.3.6.1; 11.3.6.2

Breathing apparatus
  air line 10.8.2
  cartridge/canister face masks 10.8.4
  emergency escape breathing device 10.3;
  10.8.3; 10.11.7
  hose mask (fresh air) 10.8.5
  maintenance 10.8.6
  readiness for enclosed space entry 10.5
  self-contained 10.8.1
  stowage 10.8.7
  training 10.8.8
Bunkering
operations Chapter 25
procedures 25.2
safety check-list 25.4

Bunkers
checking of headspace for flammability
2.7.3.2; 4.1
hazards associated with 2.3.6.4; 2.7
information exchange 22.2.3; 22.4.1
MSDS 25.4.3(22)
– see also Residual fuel oil

Buoy moorings
berthing at 23.5
commencement of loading at 11.1.6.8
hoses weights for Table 18.3; Table 18.4
information exchange 22.3.2

Butane
addition to crude oil 2.5.6.1
calibration of flammable gas monitors
2.4.3.4
density relative to air Table 1.2
flammable limits of 1.2.2; Table 1.1
LPG carriers carrying petroleum product
14.2.4

Butterfly valves
pressure surge 11.1.5
– see also Valves

C

Cables
ship/shore bonding 17.5.2; 17.5.4
– see also Wandering leads

Cannons
– see Monitors

Cans
petroleum in 12.5.1.2
– see also Drums

Carbon dioxide
as product of inert gas 7.1.3; 10.2.6
electrostatic hazard 3.3.6
fire-fighting 5.3.2.2; 19.5.2
flooding 8.1.3.1
use as span gas 2.4.10.1

Carbon monoxide
as product of inert gas 7.1.3; 10.2.6
properties and hazards of 2.3.9.5

Cargo
changeover, combination carriers 14.1.13
deck 12.5.8
distribution 22.5; 22.6
handling Chapter 7; Chapter 11;
Chapter 24; 26.3
information 22.2.4; 22.4.2
jettison 9.9.3.3
leakage into ballast spaces 11.3.6.11;
11.7
MSDS 2.3.4; 14.2.2; 20.1; 22.4.2.1;
26.4(26)
operations, at general cargo berths 24.9.3
operations, not always afloat 16.7
operations, over the tide 16.6
packaged 12.5
pipeline draining 10.11.2
tank lids 24.3.1; 26.4(15)
toxicity 2.3
transfer equipment Chapter 18
– see also Discharging; Hoses; Loading;
Manifolds; Measuring and sampling;
Metal cargo arms; Pipelines; Pumps;
Tank; Valves

Cargo arms
– see Metal cargo arms

Cathodic protection
– definitions
anodes in cargo tanks 4.7
fire-mains 19.5.3.3
hull/jetty 17.5.2
sea islands 17.5.3
use during ship-to-ship transfers 11.9.5

Check-lists
bunkering safety 25.4
combination carriers 14.1.13
ship/shore safety 26.3; 26.4

Chemical indicator tubes
toxic gases, measurement of 2.4.7.1

Cigarette lighters
precautions for use 4.2.2.4

Cleaning liquids
precautions for use 12.2.4

Climatic conditions
cold weather precautions 7.1.11; 7.2.2.2;
7.2.2.3; 7.2.2.4; 8.1.2
electrical storms/lightning 16.3; 17.6;
26.1.3; 26.4(24)
still air/wind 2.5.5; 11.1.8; 11.1.9.2; 26.1.2

Clingage
– definitions

Closed discharging
operations 11.1.14.3
Closed loading
cargoes containing benzene 2.3.5.2; 11.1.10
cargoes containing $\text{H}_2\text{S}$ 2.3.6.4; 11.1.9.2
operations 11.1.6.6
very high vapour pressure cargoes 11.1.8

Closed operations
- definitions

Clothing
electrostatic hazard 3.3.7
of synthetic materials 26.2.4
protective 19.7
- see also Footwear

Cold weather
precautions 7.1.11; 7.2.2; 8.1.2
- see also Climatic conditions

Cold work
- definitions
electrical repairs 4.4.5.2
on pipelines 9.4.4.5
precautions 10.2.3

Combination carrier
- definitions
- Section 14.1
ballast spaces 14.1.11
cargo changeover 14.1.13
hatch covers 14.1.8
inert gas system 14.1.7
Oil/Bulk/Ore (OBO) 14.1.2.1
Oil/Ore (O/O) 14.1.2.2
slack holds 14.1.3
slops 14.1.10
sloshing 14.1.4
stability 11.2; 14.1.3.2
tank washing 14.1.9; 11.3
venting of holds 14.1.6
void spaces 14.1.12

Combustible (flammable)
- definitions
- see also Flammable

Combustible gas indicator (Explosimeter)
- definitions
area testing 2.7.3.2; 4.5.1; 7.1.6.12; 8.2; 10.3; 11.4.4
dilution tubes 2.4.3.4
non-catalytic heated filament type 2.4.4
pellistor type 2.4.3
terminal protection 19.2.7; 19.2.8; 19.2.9

Combustion equipment
maintenance 4.2.4.1

Command centre
emergency organisation 9.9.2.2

Communications
Chapter 22
at offshore berths 11.1.6.8; 11.1.14.8
bunkering 25.2; 25.4.3(7)
closed circuit television 4.4.3.2
enclosed space entry 10.5; 10.10.2
equipment 4.8; 22.1.1
language difficulty 22.1.2
mobile telephones 4.8.6
pagers 4.8.7
pre-arrival 16.1; 22.2
pre-berthing 22.3
pre-transfer 22.4
procedures 22.1.2
pumproom entry 10.10.2
radio 4.8.2
satellite 4.8.2.3
ship to barge 11.9.2
ship to ship 11.9.4
telephones 4.8.5; 4.8.6; 22.1.1; 26.4(3)
terminal emergency 20.2.3; 20.4
UHF/VHF 4.8.2.2; 22.1.1; 22.1.2;
26.4(40),(41)
vapour emission control 11.1.13.10

Condensate water
precautions 7.1.7.4

Contractors
management of 9.7

Conventional buoy moorings (CBM)
information alongside 22.3.2
mooring at 23.5.1
weight of hose strings Table 18.3

Craft alongside
- see Alongside, Boats alongside

Crude oil washing
advance notice 11.5.2
cautery notice 11.5.10
operation 11.5; 26.4(57),(58)
plan 11.1.14.6; 22.6
precautions 7.1.6.9; 7.3.3.1
supervision 11.5.9

D

Dangerous area
- definitions
description of 4.4.2
electrical equipment in 4.4
work permits 19.1.3

Dangerous goods
carriage and storage of Chapter 12
classification of 12.5.2

Deballasting
— see Ballast

Deck cargo
carriage of 12.5.8

Deck watch
effective, during transfer operations
26.4(22)

Deck water seal
correct function 7.1.5.2; 26.4(52)
freezing of 7.1.11.3

Density
gas 1.3; 2.2; 2.5.1; 2.5.2.1

Derricks
earthing 4.8.2.1
hose handling 18.2.13; 22.3.2
inspection and maintenance 8.3.1

Detonation arrester
vapour emission control systems
11.1.13.6

Dilution tubes
discourage use of 2.4.3.4

Dipping
inerted cargo tanks 7.1.6.6; 24.4
electrostatic hazards 3.2.1; 11.8.2

Discharging
cargo 11.1.14
closed 11.1.14.3
commencement of 11.1.14.7; 11.1.14.8;
11.1.14.9
communication system 22.4
crude oil washing 11.1.14.6; 11.5
electrostatic hazards 11.1.14.14; 16.11.4
gas freeing/tank cleaning concurrently
11.3.6.4
inert gas procedures 7.1.6.6; 11.1.14.4
information exchange 22.4.1.2; 22.4.2.2;
22.6
over the tide 16.6
periodic checks 11.1.14.10
plans 22.6
rates 11.1.14.11; 22.4.1.2; 22.4.2.2
simultaneous ballast and cargo handling
11.1.14.12
stability 11.2
stripping and draining 11.1.14.14

Dispersion
gas, evolution and 2.5.3; 2.5.4; Figure
2.3(a)(b)(c)

Doping (or Dosing)
cargoes 12.5.2.2
— see also Additives

Double banking
management of operation 16.5

Double bottom tanks
building 11.3.6.11
impact on stability 11.2.2
in combination carriers 14.1.1; 14.1.2;
14.1.3
loading bunkers into 25.2
ventilating 11.4.7

Double hull tankers
cargo leakage 11.7
inerting double hull tanks 11.7.2
stability considerations 11.2
ventilating procedures 11.4.7; 11.7.1

Drain plugs
inspection of 10.11.1

Drip pans/trays
spill containment 24.7.4; 26.4(10),(12)

Drugs
and alcohol policy 13.4
trafficking 13.5

Drums
precautions, handling/stowing 12.5.1;
12.5.8

Dry chemical powder
— definitions
compatibility with foam 5.3.2.1
flame inhibitor 5.3.3.1
use on class 'B' fires 5.2.2
use on class 'C' fires 5.2.3
— see also Fire-fighting

Duct keels
combination carriers 14.1.1

Dunnage
use of 12.5.1.2; 12.5.8

E

Earthing (grounding)
— definitions
electrostatic hazards 3.2.1; 11.8.2.2
in terminal 17.6
ship/shore 17.5.2; 17.5.3; 17.5.4
stays/derricks/booms 4.8.2.1
transmitting antennae 25.4.3(17); 26.4(42)

Electric cables

  evacuation Chapter 21
  medical facilities 20.2.7.4
  organisation 9.9.2.2; 20.2.2
  plans 9.9.2; 20.2; 20.4
  preliminary action 9.9.2.3
  preparedness, terminal Chapter 20
  procedures Chapter 20; 10.6; 26.5
  release of cargo hose/arm 18.1.10; 26.4.5
  release of ship 11.1.6.10; 26.4(2); 26.5.4
  removal from berth 20.5; 26.5
  services 20.2.7
  shutdown 11.1.6.3; 26.4(25)
  signals 22.1.2; 22.4.1.1; 22.4.2.1;
  22.4.2.2; 22.5, 22.6; 25.2; 26.4(25)
  towing-off pennants 26.4(4); 26.5.5
  training and drills 9.9.2.7; 21.4
  vehicles, access 19.8; 20.2.6

Emergency towing-off pennants
  rigging and use 26.4(4); 26.5.5

Enclosed spaces
– definitions
  entry into Chapter 10; 7.1.6.12; 7.1.7.3;
  12.5.3
  evacuation from 10.6.1
  gas freeing 11.4
  hazards of 10.2
  inspection of 24.4
  oxygen deficiency 10.2.5
  permits to work in 9.3; 10.4
  rescue from 10.6.2
  respiratory hazards 10.2.2
  toxic hazards 10.2.4

Engine room
  cargo oil, exclusion from 11.3.6.7
  control of potential ignition sources 4.2.4

Entry permit
– definitions
– see also Enclosed spaces; Permit to work system

Explosimeter
– see Combustible gas indicator

Explosion-proof (flame-proof)
– definitions
  cable attachment 4.3.2
  inspection of fittings 4.4.4.6

F

Fans
  gas freeing 11.4.5; 11.4.6
  pumproom ventilation 10.10.1; 10.11.5;
