PLASTERING
PLAIN & DECORATIVE

A PRACTICAL TREATISE ON THE ART AND CRAFT, INCLUDING FULL DESCRIPTIONS OF MATERIALS, PROCESSES AND APPLIANCES, AND AN ACCOUNT OF HISTORICAL PLASTERING

By WILLIAM MILLAR
Plasterer and Modeller

Edited and Remodelled, with new Chapters on Lime Stucco, Modelling and Design in Relief, Modern Plasterwork, Compositions, Etc.

By GEORGE P. BANKART
Architect and Decorative Craftsman

FOURTH EDITION, REVISED & ENLARGED

With Numerous Practical Diagrams, and 278 Illustrations from Photographs on 125 Plates, mostly new to this Edition

**APPENDIX**—Notes on Some Recent Developments in American Plastering

**INDEX TO TEXT**

**INDEX TO ILLUSTRATIONS**
INDEX TO TEXT

A

Adam style, 28; decoration, 54
Adamant for floating walls, 298
Aggregates, weights of, 303
American paste composition, 314
AMERICAN PLASTERING, 323-334—Specifications, 324-26; colouring, 329; estimating, 330; "Oriental stucco," 334
APPLIANCES AND TOOLS, 86-95
Arabian and Moorish work, 6, 33
Arches, soffits of, 168-69
"Art," defined, 57
Art school training, 63
Austrian plasterwork, 42

B

Balcony fronts, casting of, 228-32
Baluster making, 210-11; casting, 212
Bedded enrichment, 257
Belgian plasterwork, 42
Bewick's engravings of animals, 75
Blocks, fibrous plaster, 271
Boards for lining, various, 140-43
Building construction affecting plasterers' work, 59
Buon fresco. See Fresco
Bushel box, holding capacity, 304
Bust, jelly moulding, 224
"Butter-pat" ornaments, 79, 80

C

Cairo, plasterwork in, 29-32
Canvas cutting, 245
Capitals, making: Corinthian, 188-90; pilaster, 190; composite, 190; Ionic, 191-93; reverse moulds for, 278
Carton-pierre, 291; recipe, 292; French, 293
Casts: soft, spotty, gelatine, 226-27; plaster bed for, 227; painting, 227
Casting, method of, 213; hollow casts, 213; plaster for, 214; white cements, 214; Portland cement, 214; dry cement work, 215; jelly moulds, 232; in fibrous plaster, 245

Ceilings, decorative: solid work, 144; panelled, 144-48; rib brackets, lathing, floating, setting out, mouldings, etc., for panelled work, 144-48; in Portland cement, 149-51; fibrous plaster panelled, 152, 244; coffering, 154; classic panelling, 155
—covering beautifully, quickly and inexpensively, 78; decoration of, in situ, 79
dangerous old, strapping up of, 273
ejelly mould of, 239
modern English, 60; various types, 61
old, renovating, 243
—partitions, etc., 125; metal lathings for, 126; plasters for, 127; suspended, 128-30; solid partitions, 129; lathing accessories, 130; expanded metal, 135
—rib, 235
Cement concretes, with aggregates, weight of, 301
—painting, 315
—renderings, waterproofing of, 113
—stucco on walls, surface for, 114
—wash, 316
Cements, various, 109-12, 118-20, 123
—porosity, 300
—quantities. See Plasterers' Memoranda, etc.
Cennino Cennini, recipe by, 6; extracts from his MS. on gesso, etc., 286-89
Centre flowers, old Victorian, 194; fibrous plaster, 249-50
Chemical names, materials, 305
Chinese plasterwork, 37
Circular mouldings on circular surfaces, 172-75
Classic truss cornice, 185
Clay piece moulds, 202; plasticine squeezing, 202
Cofferings ceilings, 154
Colour, for distemper, 319; of plaster of Paris, 99; of American stucco, 323-329
Colours on drawings representing plaster and concrete, 305
Columns and pilasters cast fibrous, 248; plaster casing for, 137-38
—diminished, 156; column trammel, 158; construction and setting out flutes, 159; rim method of forming, 160; collar method, 161

INDEX TO TEXT
Columns, making reverse moulds for, 278-80; hollow casts for, 281
Combined gelatine and plaster moulds, 234
Compo, use of, in England, 293; recipes, 294
Composite capital, making, 190
— flooring in timber joists, 137
COMPOSITIONS, 283-96; gesso, types of, 284; Crane’s recipe, 285; Cennini’s recipes, 286-89; Smith’s patent metal, 289; papier-mâché, 290; carton-pierre, 291; pâte coulante, 293; compo, 293-94; London composition, 294
Concavo-convex mouldings, 229
Concrete quantities, 303
Condensation, surface, cure for, 117-18
Cores, hollow, 281
Corinthian capital, setting out and making of, 188-90
Cornice, classic, 185
— setting out reverse running mould for, 275; making mould, 275; reverse running mould for casting mould, 276
Cornices in fibrous plaster, casting of, 252-63; fixing, 261-63
Costs of materials and labour, 305
Cracks in cement stucco, how to avoid, 114; in walls and floors, how to minimise, 117
Cubic contents, how to find, 307-11
Cupola panels, 167-69

D
Damp-proof slabs, 271
Damp walls, treatment for, 4, 115
Danish plasterwork, 43
Deafening (or pugging) slabs, etc., 271
Decorative design, art of, 74; living form in, 75
— sheets, fibrous plaster, 264
Decoration, points regarding, 140; of paneling, 140
Design, main principles, 45; sources of inspiration, 54
Dimensions, squaring, 307-11
Diminished columns, floating rules, pilasters, mouldings, 156-66
— models, hinged running moulds for, 187
Distempering, 317; colours, 319-20
Door frames, details of, 133
Double diminished mouldings, false screed method, 163; diminished rule method, 164; top rule method, 165
Drawing (good) foundation of good modelling, 63
Drawings, colours on, representing plaster and concrete, 305

E
EASTERN AND CONTINENTAL PLASTERWORK, 20-43
Efflorescence in cement plastering, 115
Egyptian plasterwork, 1
Elizabethan and Jacobean mouldings, 20
Elliptical mouldings, 170-71
Encasing steelwork, 138, 139
English plasterwork, historical sketch of, 11-28
— stucco modelling, development and deterioration, 48
Enrichments in fibrous plaster, 259
Expanded metal lathing, “B.B” and “Expamet,” 126; painting, spacing, fixing, 127; plasters for, 127; in suspended ceilings, 128, 129; accessories, 130; details of fixing, 131-34; metal rib partitions and ceilings, 135; in pugging to floors, 137; in casing for column and stancheon, 137; encasing, 138; substitution for wood backing, etc., 264
EXTERIOR PLASTERING AND SGRAFFITO, 177-183

F
False columns, 138
FIBROUS PLASTERWORK, 243-273
— plaster, fire-resisting, 228
— case making, 231
— casting, right use of, 59
— slabs, quantities, etc., 298
— slab or patent wood, 293
— substitutes for hair, 106
— work, gauging in, 213
Fictile ivory, 315
Fire-resisting fibrous plaster, 264; slabs and partition blocks, 269-71
— construction and decoration, 228
— whitewash, 317
Fixing details, 262-63
Flinders Petrie’s (Dr) Egyptian tool relics, 86
Floating rules, diminished, 156-57
Floors, granolithic, defects in, 116; how to minimise cracking, 117; pugging, 136, 271
Florentine plasterers, 9-10
Flowers, treatment of, in modelling, 78
“Fluates,” 113
Fluted columns (diminished), reverse moulds for, 278-80
— pilasters, diminished, 163
Foliage, treatment of, 78
French plasterwork, 10, 12, 13, 39; carved plaster, 41, 99
INDEX TO TEXT

Fresco, 181; Pompeian examples, 181;
Italian Renaissance and modern English, 182; materials and methods, 182; old
MS. description of fresco painting, 183;
fresco secco, 183

Frets, cast enrichment of, 194
Fruit, flowers, and foliage in modelling, 78

G
Gables, pargetted, 61, 81
Gauging plaster, 212; fibrous work, 213
GELATINE MOULDING, 217-240
— moulds, 59, 217; casts, 227
— quantity per foot super, 298
Georgian plaster mouldings, typical, 25
German plasterwork, 41; mortar, 41
Gesso, 283; examples, 284; a good recipe, 284; preparation of, 284; suitable woods, 284; preparing foundation, 285; Walter Crane's recipe, 285; gesso duro, gesso sottile, gesso grosso, 286; extracts from Cennino Cennini's MS., 286; a fine example, 287; Smith's patent metal for casts, etc., 289
Girder encasing, 138
Glass, ground, in oriental work, 36
Glue moulds, 225
Granite plaster, 123, 298
— concrete paving quantities, 303
Greek plasterwork, 2; mortar, 2
Grooved slabs, 270
Guilloches and frets, cast enrichment of, 194

H
Hair, 106; fibrous substitutes for, 106; sawdust substitutes, 106
— quantities, 297
Haired putty setting, 106
Hamelein's mastic, 108
Hawk boys, 321
Hardwick Hall, great frieze, 51
Heat memoranda, 303
Henry VIII's Italian plasterers, 11
Hinged running moulds for diminished models, 187
Hollow casts, 213; cores and column casts, 289
— walls, partitions, etc., construction, 131-33
Honeysuckle flower and leaf, modelling of, 69, 70
Human-figure modelling, 72, 82, 83
Hydraulic cements, 123
Hydralime, 104

I
Indian plastering, 35; one-coat, two-coat, and three-coat work, 36; story of the Indian "idiot," 37
India-rubber moulds, 227
Inspiration for design, sources of, 54; in ancient work, 77
Interchangeable moulds, 233
Ionic capital and volute, setting out and drawing, 191-93
Italian Renaissance, 6-10, 37, 38, 46; lime-plasterwork, 47; frescoes, 183
— plasterers in England, 11; in France, 47
Ivory, plaster imitation of, 314; fictile ivory, 315

J
Jelly moulds, seams and blebs in, 221; oiling, 221-22; gum oil for protecting surface, 221; brushed and open, 225; casting in, 232
Jelly moulding a truss, 224; a bust, 224; cornice frieze and architrave, 238; undercut model and jelly mould of ceiling, 239
Jelly-pot, 201
Joggles, 223
John's (King) edict, 14
Joints in cement work, 117

K
Keen's cement, 119
Keystone making, 187
Kilmarnock Hospital, unsatisfactory decorative workmanship at, 52
Knossos stucco, 49

L
Labourers' tools, 94
Lathing, wood, 124; expanded metal, 126-138; various patents, 139
— quantities, 297
Laths, fibrous plaster, 245
Life, moulding from, 205
Lime: an Italian secret, 38
— mixing, 105
— plastering, quantities, 299
— putty, 50, 105
— seasoning, 49
— selenitic, for lath work, 121
— stearate of, 108
— treatment of, 48-50, 102-3
— water for hardening casts, etc., 100
Limes, defects and qualities of, 50, 99; for mortar, 50; hydraulic, 100; chalk, 101; rich versus short, 101; Scotch, 101; Irish, 102; calcination, 102; slaking, 49, 102-3; lime putty, 105; stearate of, 108

LIME-STUCCO PLASTERWORK (STUCCO-DURO) IN PRINCIPLE AND PRACTICE, 44-54
—- modelling, objections to, answered, 54
—- Italian work in France, 47

Limewhite, quantities, 298

Literature of plastering, 321

LOI:
don composition, 294; casting, 295

Magnesia cement, 110
Martin's cement, 119

Mastic, various kinds, 107, 108; manipulation of, 108; mastic cement, 108; Hamelin's, 108; quantities, 298

Material, influence of, on quality of work, 74

MATERIALS, 96-143
— various, weights, 302-3; cost, 305
Measuring plasterers' work, 306
— triangles, 308; irregular widths, 308

MEMORANDA, QUANTITIES, WEIGHTS AND COST, 297-306
— (students'), figured measurements, and sketch book, 65

Metal lathing. See EXPANDED METAL
Mitre and joint stops, 249

Mitres and abutments, cast enrichment, 194-95

Mixings, water for, 114

MODEL AND RUNNING MOULD MAKING, 184-198

MODELLING AND DESIGN IN RELIEF AS SPECIALLY APPLICABLE TO PLASTERERS' WORK, 62; technique, 63; memoranda, figured measurements, and sketch-book notes, 64-71, 75; honeysuckle flower and leaf, 69-70; points of technical importance, 71; unsuitable models, 73; drawing, 73; progressive studies, 74; Bewick's engravings of animals, 75; how to cultivate power of design, 76; style, 77; treatment of flowers, fruit, and foliage, 78; in situ decoration, 79; "butter-pat" ornament, 80; pargetting, 81; overmantels, 82; human figure modelling in decoration, 82-3; qualities of good relief work, 84; high relief modelling, 85
— and casting separately, 52
— composition, 314
— on outside walls, 80

Modelling relief work, 72
— wax, American, 314
— with stucco, right and wrong ways of, 51, 52; in situ, 79

Models, unsuitable, 73

Modillion moulding, 208
Moorish plasterwork, 35

Mortar, German, 41; best limes for, 50; grinding, 103
— lime and cement, quantities and weights, 301

MOULDING AND CASTING, 199-216
— from life, 205
— See GELATINE MOULDING

MOULDINGS, RUNNING DIMINISHED AND CIRCULAR, 156-76
— construction of, 59
— concavo-convex, 229
— planted, 146
— solid "run," 146

Moulds, hinged- running, for diminished models, 187
— running, 195-96; for enriched cornices, 196; twin-slippered, 196; arch radius and hanging, 197; notes on, 198
— clay-piece, 202; various, 225-26; indiarubber, 227; interchangeable, 233
Muslin plaster casts, 205

N

Nails for lathing, 297
Natural objects, taking casts of, 315
"Naturalistic" detail, 52; decoration, 73

Nero, Golden House of, Raphael's discovery, 8

Nonsuch Palace, Italian work at, 47

Oil paint, quick drying, 320

Oiling plaster moulds, 212

Oriental stucco, 334
"Ornament" and "decoration," definition of, 74

Outside walls, modelling on, 80

Overmantels, plaster, 8, 58, 65, 81, 82

P

Painting cement, 315
— in relief (gesso), 286; preparing panels and grounds, 287; tempering, 287-88; smoothing and planing surfaces, 288
Paints and washes, 320
Panelled ceilings. See Ceilings, Decorative
— coves, 163; panelled beams, 169
Panelling, basic designs for, 140; patent boards for, 140-43
Paper casts without moulds, 291
Papier-mâché, use in stage properties, 290; moulds and paper casts, 291
Pargetting, 14, 21, 81
Parian cement, 119
Partition blocks, sound-resisting, 269
Partitions, 125, 129, 131-35
Paste composition, 314
Paste making, 291
Pate coulante, 293
Patent materials. See Materials
Perforated slabs, 271
Pergolesi's designs, 27
Persian plasterwork, 31
Plaster of Paris, manufacture, 97; boiled, baked, quick and slow setting, 98; testing, setting, colour, strength, 99; French plaster, 99
— beam and piece mould, 237
— bed-making for cast, 227
— box, 199, 202
— case making, 222-23
— casts, polishing, 312
— casting, 213-14
— decoration. See Modelling and Design
— for expanded metal lathing, 127
— for casting metal, 314
— gauging, 212
— hardening, new mode of, 312
— imitation of old ivory, 314
— model seasoning, 220-21
— moulds, water-seasoned, 215
— overmantels, 8, 58, 65, 81, 82
— piece moulding, 206-7; moulding a modillion, 208-10; a baluster, 210-11
— quantities, 298
— waste moulding, 203; piece moulding, 206
Plasterers' tools, 86-95, 200. See also Tools and Appliances
— waste moulding, 203
— work, measuring, 306
Plastering, Exterior, and Sgraffito, 177-183
— rapid, use of slabs for, 265
— true function of, 63
Plasterwork Generally, A Glimpse of Its History, 1-28
— Modern, 55-61; inartistic treatment, 58; fibrous plaster casting, 59; treatment of ceilings, 60; modern examples, 60-61
— cost of materials and labour, 304-5
— good, qualities of, 84
— Pompeian, 5
— recipes for, 311
— waterproofing, 314
Plasticine squeezing, 202
Polishing casts, 312-14
Portland cement, 109; magnesia in, 110; setting, 110, 111; hardening, 111; influence of light on, 111; uses of white Portland cement in stucco, interior decoration, and statuary, 112
— and sand, quantities, 301; comparative strength, 302
— casting, 214
— ceilings in, 149
— gables in, 61
— sgraffito in, 180
Pressed cement work, 215-16
Primaticcio's figure-work, 10, 12
Pudlo, 118
Pugging to floors, 136, 271
Putty, lime, preparation and protection of, 105
Q
Quantities, weights, and cubic contents, 296
Quick-drying oil paint, 320
R
Raphael's revival of modelled stucco decorations, 8, 46
Rapid plastering, 265
Recipes: Cennini's, 6, 286; Marcian MS., 7; Ligorio's, 9; Indian plasterers', 35; German mortar, 42; various, 48; Knossos stucco, 49; author's own, 51; squeeze wax, 200; Walter Crane's, 285; for carton-pierre, 292; paper casts, 291; permanent paste, 291; carton-pierre, 292-93; pâte coulante, 293; compo, 294; London composition, 294; plasterwork, 311; whiting, 317; for paints and washes, 320
INDEX TO TEXT

Reed slabs, 270
Relief modelling in clay and in lime stucco, 72, 73; in situ, 79; qualities of good modelling, 84; some great examples, 84
Renderings, 113; number of coats, 117; method of finishing, 117
Renovating old ceilings: fibrous plaster process, 243-44
Repair of sagging old ceilings, 273
"REVERSE" MOULDING, 274-282
Rib mouldings, reverse mould for, 277-78
Rich versus short limes, 101
Robinson’s cement, 120
Robinson, G. T., on combining sgraffito with fresco, 178
Rococo stucco ornament, 54
Roman plasterwork, 3-5; cement, 119; quantities, 301
Rose, treatment of, in plasterwork, 73
Renaissance ceilings, early: characteristics of, 17
RUNNING DIMINISHED AND CIRCULAR MOULDINGS, 155-76
— moulds: false screed method, 163; diminished rule method, 164; top rule method, 165
— moulds. See MOULDS
Russian plasterwork, 43

Silicate of cotton: quantity per 100 ft. super, 298
Silico-fluorides of zinc, magnesium, and aluminium, 113
Sirapite, 123, 124; weights, 298
Silver sand for Portland cement, 107
Size water, 245
Sketch and note-book for memoranda, etc., 65-68; examples, 66-68
Slabs, fibrous plaster: bench slab mould, 267; fixing and setting, 268; fire-resisting, 269, 270; combination, 269; external, 269; fire-resisting, 270; reed and grooved, 270; perforated, 271; pugging or deafening, 271; materials and methods of hardening, 271; damp-proof, 271
Slag cement, 118
Smith, Abraham: frieze at old Hardwick Hall, 47
Smith’s patent metal for casts and moulds, 289
Soap solution, 212
Soft casts, 226
Solutions for models and piece mouldings, 212
Sound-resisting partition blocks, 269
Spanish and Moorish plasterwork, 33
Specifications, American, 334
Squaring dimensions, 307
Squeezing wax, 200
Staff. See FIBROUS PLASTERWORK
Stage properties, papier-mâché in, 290
Statuary, white Portland cement in, 112
Stearate of lime, 108
Stearic impervious solution, 212
Stiffening rules, 231
Straight moulds, 225
Strapping up dangerous old ceilings, 273
Structural steel work encasing, 138
Stucco, cause of premature decay, 50
— composition of, 49, 51. See also RECIPES
— modelling in. See LIME STUCCO
— modelling: some masterpieces, 46; right and wrong ways of, 51-54
Suet solution, 212
Sulphur moulds, 295
Summer’s (Mr Heywood) methods with sgraffito, 179-80
Super-cement, how produced, 112
Suspended ceilings, details of, 128, 129

S
St Michael’s Mount, Cornwall, frieze, 52
Sand, varieties of, 107; quality of, 107; for lime plaster and coarse stuff, 107; for Portland cement, 107
“Sandusky” (white Portland cement), 112
Sanitary whitewash, 316
Saracenic plasterwork, 29
Sawdust substitutes for hair, 106
Scotch limes, 101
Scottish examples of plasterwork, 21, 23
Seasoning plaster models: shellac, oil, or paraffin wax, 220, 221
Selenitic cement, how to prepare, 120; precautions regarding use of, 122; cost, 122; to ensure success in use of, 122; quantities, 300
— clay finish, 123
— blue lias, preparation of, 121
— lime for lath work, 121
Setting coat and trowelled stucco, 121
— stuff, 105; haired putty, 106
Sgraffito, 177; Italian and English, 177-81; Vasari on, 178; combining with fresco, 178-79; Mr Heywood Summer’s methods, 179; author’s method in Portland cement, 180

T
“Taste” defined, 60
Tempera painting, 286
Templates for running elliptical mouldings, 171; setting out reverse, 274
