# Contents

**INTRODUCTION** 6  
First principles  
Sustainability and sizing  
Communicating information

**CHAPTER 1: EXISTING WALLS** 12  
Basic principles  
Loadbearing walls  
Masonry  
Creating openings in loadbearing walls  
Moisture ingress  
Lining external walls  
Non-loadbearing walls

**CHAPTER 2: NEW WALLS** 24  
Basic principles  
Stud partitions  
Constructing stud partitions  
Joints in plasterboard sheets  
Step by step: Finishing drywall stud partitions  
Reinforcement of junctions in stud partitions  
Metal framing for stud partitions  
Conventional skirtings  
Alternative skirtings  
Conventional cornices  
Shadow-gap cornices  
Soundproofing walls  
Fireproofing walls  
Fireproofing metal columns  
Installing services

**CHAPTER 3: ALTERNATIVE PARTITIONS** 50  
Curving walls  
Building curves  
Freestanding walls  
'Floating' walls  
Base fixings for partitions  
Cladding isolated partitions  
Fixing methods  
Invisible fixings  
Glazed partitions  
Frames for glazed partitions  
Framing and beading  
Joining glass sheets

**CHAPTER 4: DOORS** 74  
Basic principles  
Modern detailing for doors  
Sliding doors  
Fanlights  
Glass in doors  
Non-standard doors  
Fire regulations for doors
CHAPTER 1: EXISTING WALLS 12
First principles
Sustainability and sizing
Communicating information

CHAPTER 2: NEW WALLS 24
Basic principles
 Loads-bearing walls
 Masonry
 Creating openings in loadbearing walls
 Moisture ingress
 Lining external walls
 Non-loadbearing walls

CHAPTER 3: ALTERNATIVE PARTITIONS 50
Curving walls
 Building curves
 Freestanding walls
 'Floating' walls
 Base fixings for partitions
 Cladding isolated partitions
 Fixing methods
 Invisible fixings
 Glazed partitions
 Frames for glazed partitions
 Framing and beading
 Joining glass sheets

CHAPTER 4: DOORS 74
Basic principles
 Modern detailing for doors
 Sliding doors
 Fanlights
 Glass in doors
 Non-standard doors
 Fire regulations for doors

CHAPTER 5: FLOORS 86
Solid ground floors
 Suspended ground floors
 Upper floors
 Timber joists
 Timber rot
 Construction tips for timber
 Steel beams
 Planning new structures
 Installing mezzanines
 Raising the floor
 Openings in floors
 Floor finishes
 Finishing materials
 Other considerations

CHAPTER 6: CEILINGS 112
Basic principles
 Suspended ceilings
 Angled and curved ceilings
 Proprietary ceiling systems
 Hanging methods for proprietary systems
 Other considerations

CHAPTER 7: FURNITURE, FIXTURES AND FITTINGS 122
Basic principles
 Portable workshops
 Base structures
 Jointing techniques
 Decorative joints
 Joining sheet materials
 Veneers
 Edging veneers
 Aligning furniture edges
 Fabricating elements on site: built-in seating
 Furniture legs
 'Floating' furniture
 Shelving

CHAPTER 8: STAIRS 142
Basic principles
 Timber stairs
 Stone and concrete stairs
 Steel stairs
 Handrails and balustrades
 Cantilevered treads
 Spiral stairs
 Glass stairs
 Fire regulations
 Ramps, lifts and escalators

CHAPTER 9: MATERIALS 158
Timber
 MDF
 Plywood
 Steel
 Aluminium
 Glass
 Acrylic
 Fixings

CHAPTER 10: STRUCTURAL PRINCIPLES 170
Introduction
 Materials in compression and tension
 Orientation of structural elements
 Cantilevers
 Beams
 Stability
 Rule-of-thumb sizing

CHAPTER 11: A TO Z 182
Glossary
 Resources
 Index

INDEX

Numbers in italic refer to captions.

A  
acid etching (of glass) 167  
acrylic sheets 167  
adhesives 168  
aluminium 165, 165  
skIRings 38  
stops and strips 32-33, 165  
arches, masonry 173  
architraves 76, 77, 79

B  
bonded joints 100, 100, 150, 150, 151  
bonding 100-101  
base fixings for partitions 60, 60  
beams  
steel 100-101  
circular 127, 177  
councte 101  
disguising 177, 177  
Flemish bond 17, 17, 177  
English bond 17, 17, 177  
loadbearing capacities 173, 173, 173  
sizing 181  
sizing 181  
stiffened 100-101  
fir 100-101  
steel 100-101  
triangular 177, 177  
beams, circular strength 98  
blocks, 16, 17, 26  
glass 16-67  
size 26  
brick walls 26, 46  
curved 54  
blocks 16, 26, 173  
size 26  
brick 'slip' 17  
brick walls 16-17, 26  
curved 54  
exposing 57, 26  
insulating 180  
installation of pipes and wires 49  
plastering 26  
size 185

C  
cantilevered treads 152, 152, 153  
ceilings 176, 176  
carpets 109  
cavity walls 22  
and damp 20-21, 89  
ceilings  
basic construction 114  
under concrete floors 114  
curved and angled 116, 116  
lath and plaster 114  
and light fittings 114, 116, 117  
lowering 27  
lowering for ductwork 117  
plasterboards 114  
suspended 115, 115  
suspended using proprietary systems 118, 118, 119  
timber 114  
see also cornice  
chipboard 102, 161  
clothing  
of sealed partitions 61, 61  
see also plasterboard  
chimney stacks 20, 148, 148  
CLS (Canadian Lumber Size) stud framing 28, 160  
columns 91, 96  
concrete 101, 180  
loadbearing capacities 98, 98, 172  
novations 88, 98  
and 'point' loss 98, 98  
steel 101, 180  
Timber 98  
compression 172, 172, 173, 173  
concrete 26, 175  
alternatives to 26

lightweight 28  
concrete beams 109, 105  
concrete columns 101  
sizes 160  
concrete floors 46, 105, 106, 111  
laying pipes and wires in 110  
repairing 107  
concrete walls 46  
laying pipes and wires in 49  
corridors 49, 49  
corridors 42  
installing 42, 43  
repairing 42  
shadow gap 44, 44, 45  
costs 10-11  
corresponding screws 169  
cover strips 7  
curved glass 167  
curved walls 22, 32-33, 53, 57  
brickwork and blockwork 54  
glass 48, 69  
stud partitions 54, 54-55, 55

D  
damp 20-21, 89  
damp-proof courses 88, 89  
damp-proofing, injected 88  
damp-proof membranes 20, 21, 21, 22, 22, 22, 22, 88, 89  
doors and door frames 76  
architraves 76, 77, 79  
with fillings 82, 82  
and fire regulations 85, 85  
folding sliding 81, 87  
in glazed screens 83  
frames 76, 77  
éclairage and heads 76  
fenestra 18, 18-19, 19, 23  
non-standard 84, 84  
sealing round frames 20-21, 27  
shadow gap frames 78, 78  
sizes 76  
siding 80, 80  
steps 76  
unframed glass 83, 83  
with vision panels 83, 83  
with wired glass 83  
drawings, 'production' /'working' 10, 11  
drywall lining 27  
finishing 33-35  
joists 32, 32  
reinforcing cement 33, 33  
cutting and ductwork 127, 117
